Subject: Lea Castle Quarry

Dear Steven

Further to our conversation, I would like to say that I feel that a double row of trees not just whips along the crest of the hill will be beneficial to the residents in Harriers Green, James Road and Highfield Road.

I would like to stress that Broadwaters is a well developed built up area and needs quite a bit of preventative measures. It is also concerning that there are new houses being built in close proximity of the quarry and these whilst not in my ward are on the borders.

However, these disguise the houses that are already there in my ward that need protection from the dust and other things that are air born.

These houses in my ward and division are Heath Drive, Stourbridge Road, Wolverhampton Road, Ashley Road, Rozel Avenue and Kendlewood Road.

Then to the side there are Ismere Village and I would like to point out that there is also a SSS at Hurcott
