

Appellant Response to Bat Objection Received on 03/03/2022

In relation to Lesser Horseshoe bats, one individual call was recorded onsite during the 2018 surveys. This bat was assessed to be commuting through the site only (paragraphs 3.25-3.27 and 4.5 of Appendix 9/4 (Bat Activity Report) of CD1.05). No lesser Horseshoe bats were recorded onsite during the 2020 surveys
