

Case Study – Reddi Support

Lisa's story

Lisa joined Reddi Support in 2016, attending during the holidays while she was at college. She quickly settled in, making friends and took part in all activities.

Lisa's mum says:

Lisa has thrived since attending Reddi Support. She loves the interaction and skills that she has gained. She always has her friends to talk to and the staff have assisted her to cope with various life events and difficult times. Reddi Support has given Lisa the opportunities of holidays to Butlins with her friends, days out, meals out, celebrations, exercise, everyday living and work skills and having lots and lots of fun!

Working at the Reddi Support shop and café has given Lisa the opportunity to learn new skills and interact with others in a professional manner. Lisa has learned how to use the till and the card payment machines independently. She enjoys researching prices for new items and donations and interacting with customers. We are all very proud of Lisa's achievements.
